NUMBER 7

DEATHS.

BARLOW.

Mrs. Boris Barlow, nee Morris, 40, died at 5 p.m. Friday at her home near Little Rock. She leaves her husband and five children, including a two-weeks' old babe.

JEFFRIES.

James Jeffries, aged 38, employed as butcher for P. Heller, was taken ill Wednesday night of pneumonia and died at an early hour Saturday morning. Mr. Jeffries was a bachelor, and is survived by his brother, John Jeffries, of this city, and a sister residing in Knoxville, Tenn. The body was taken to Vancueburg on the Louisville & Nashville train Sunday where the interment took place.

EVANS.

Mr. J. T. Evans, one of Bourbon county's oldest and most prominent farmers, died Saturday afternoon, at the residence of his son, Charlton Evans, of near North Middletown, in the 74th year of age.

Mr. Evans suffered a stroke of paralysis last fall from the effects of which his health declined rapidly. For more than half a century Mr. Evans was actively engaged in farming and for many years was director of the North Middletown Deposit Bank. He was also active in church circles. He retired from active business several years ago and divided his large estate among his children. He is survived by three daughters, Mrs. A. G. Jones, Mrs. William M. Jones, of Bourbon, and Mrs. Marcus Prewitt and Charlton Evans, of Montgomery county. The funeral services took place Sunday afternoon at 4 o'clock from the North Middletown Christian church and were conducted by his pastor Elder C. W. Bick, assisted by Elder L. H. Reynolds. The interment was in the North Middletown cemetery.

ALLEN.

Mrs. Julia Allen, wife of Mr. W. B. Allen, quietly entered into eternal rest at her home on Duncan Avenue, on Sunday morning, at 1:30 o'clock, after a lingering illness of tuberculosis.

Mrs. Allen was 53 years of age and was the daughter of Mr. Bela Wood, of Nicholas county. She had been in ill health for several years. Everything that a fond and devoted husband could do was done to restore her health, different climates were tried and finally she came home to patiently and with the fortitude of a true Christian to await the call of her Master.

Mrs. Allen was of a retiring disposition, possessing all of those beautiful traits of character that makes the lovely Christian woman, the noblest work of God. A loving wife, a tender and devoted mother, has entered into

the peaceful and restful sleep only to awake and be greeted in the heavenly paradise by the loved ones who had gone before.

She was loved by a large circle of friends. It was but "to know her to love her." She is survived by her husband and one son, Thomas Allen.

The funeral services will be held at the residence this (Tuesday) afternoon, at two o'clock, conducted by Elder Carey E. Morgan. Burial in Paris cemetery.

Palibarbers: Newton Mitchell, W. W. Mitchell, J. J. McClinton, Jos. M. Hall, Geo. R. Bell, Dr. J. T. Vansant, Thos. Henry Clay, Sr., Jos. W. Davis.

PARKER.

—W. A. Parker, Jr., died yesterday morning at 8 o'clock, at his home in Pittsburg, Pa., of pneumonia. It was quite a shock to the many friends of Mr. Parker in this city, his old home, when the news of his death was received yesterday morning. He was the youngest son of Mrs. Emily Parker, of this city, and formerly member of the well-known firm of Parker & James. After the dissolution of the firm Mr. Parker moved to Pittsburg and opened out a big clothing house in that city, but it was at an unfortunate time and his venture was an unlucky one from a financial standpoint. He has lately been traveling for a large New York house, but retained his residence in Pittsburg. Mr. Parker was 38 years of age, and is survived by his wife, nee Miss Lena Quisenberry. Mr. I. F. McPheeers left yesterday morning for Pittsburg, and in company with Mrs. Parker and Harry Parker of New York, will leave with the remains for Paris to-morrow morning.

LINVILLE.

—Mrs. Nimrod Linville died at her home, near Ruddles Mills, Sunday night. Funeral services will be held this morning at 10 o'clock, at the Methodist Church, at Ruddles Mills. Burial in Millersburg cemetery.

WESSELMAN.

—Mrs. Johanna Wesselman, aged 84 years, died at her home on the Russell Cave Pike, in Fayette county, Sunday night. Funeral services will be held at 12 o'clock today, at the grave in the Paris cemetery, conducted by Elder Carey E. Morgan. This makes the a third death in this immediate family in past two weeks.

BARNETT.

—R. P. Barnett, aged 63 years, died at his home about three miles from Paris, last evening, at 7 o'clock, with double pneumonia. Mr. Barnett was upon the streets of our city Thursday last, but remained bed on Friday, a case of double pneumonia having developed. He was one of Bourbon's respected and thriving farmers, and widely known for his industrious habits.

He had just made up his mind to retire from the farm for a much needed rest, renting his place to his son, Clark Barnett, and had advertised his stock and personal property for sale on Wednesday.

He intended moving to Lexington to reside. He was twice married, his first wife being a Miss Clark, a daughter of the late Robt. Clark. By this marriage three children were born and now survive him—Clark and Chas. Barnett, of this city, and Mrs. John Cohen, of Lexington. His second wife, the daughter of the late Andrew Wright, and survives him.

Funeral arrangements were not made as we go to press.

BANNISTER.

—Mrs. Crittenden Bannister, aged 22 years, died at her home, near Little Rock, this county, Sunday evening, at 6 o'clock. She gave birth to a little daughter, both mother and child dying. She was a daughter of the late John C. Talbott and a niece of Mrs. Wm. C. Bryan, of North Middletown. Mrs. Bannister was a most lovely young woman, and highly respected by all who knew her.

C. O. Hinton, Jeweler, successor to W. M. Hinton. Phone 432.

Tuberculosis Exhibit at Court House.

Under the auspices of the Bourbon Medical Society, Federation of Clubs, Teachers of the Public Schools, members of the School Board and public spirited citizens, Prof. Routzan, in charge of the Tuberculosis exhibit at Lexington will be in Paris to-day and will give a free demonstration in the court house at 8 p.m., and probably an afternoon exhibit for the school children. Judge Robt. L. Stout and Jailer George Judy granted the use of the Circuit Court room for that purpose. The exhibit will consist of stereopticon views and lectures and is in charge of the American Association for the prevention of Tuberculosis.

Great Catastrophe Prevented.

The pupils of the Paris Academy, Prof. Ed. Costello's school, who were enjoying recess in the school yard Friday, a terrible railroad wreck was prevented. A telegraph pole standing near the track of the Louisville & Nashville railroad, at the north end of the high bridge spanning Houston creek, was blown down by a high wind shortly before 11 o'clock.

The pole fell across the track, and knowing that the fast express train from Cincinnati was due in a few minutes, the students rushed to the track and removed the obstruction just as the train, running at high speed, came in sight. The removal of the obstruction undoubtedly prevented a great catastrophe, as the bridge is seventy-five feet high and more than two hundred feet long.

Precious Lives.

The newspapers during the past few days have carried two stories of so-called "human interest" that go to towards illustrating how narrow and small life may become under certain circumstances. Oddly enough, both of the stories to which we have reference were from Massachusetts—one from Essex and the other from Somerville. In the first instance a man of the name of Drittenden, who had lived as if he were a victim of extreme poverty for years, and who had frequently received charitable aid from his neighbors, died, and an examination of his effects showed that he was worth upwards of \$40,000, which he had deposited in the banks.

In the second case, Benjamin Hadley, of Somerville, died, leaving an estate of some \$1,500,000 value. He had never indulged in any diversion, had never spent a penny in purchasing pleasure for any human being, had never given a cent or a thought of making brighter the life of himself or any other person.

These men led negative sort of lives measured by accumulations, their careers might have been called successful. They piled up money, but their wealth never did anybody good. Their activities were always selfish. The only happiness they ever knew was in piling one dollar on another. They held aloof from their kind, for fear that one of their beloved dollars would be required of them. They never assisted the progress of the race. They never lent a hand to the advancement of civilization. Their existence was barren. There was nothing of the milk of human kindness in their hearts. They were utterly despicable. Their deity was the dollar.

Let Country Democrats Take Interest.

In a short time a State convention will be called to select delegates, four from State-at-large, and one from each Congressional district, to attend the Democratic National Convention to be held at Denver. In these bolting times the people are entitled to know who these delegates are to be. The only way they can know is for the men who aspire to be selected for the positions to let their candidacy be known. Before the State convention will be held, county conventions will be called in each county to select delegates to attend the State Convention. The Democrats who meet in the county conventions have the right to instruct their delegates as to how they shall vote in the State Convention, what delegates to the National Convention they shall vote for, and what policies they shall ask the State Convention to adopt.

The Bryan plan is for all Democrats to attend these county conventions and name the delegates they want sent to the National Convention. Only in this way can the great body of the Democratic voters have a voice in the State and National Conventions.

If there are men who want to be sent as delegates to the National Convention, they owe it to the Democrats of the State to speak out, before the county conventions are held, so that the voters who attend these conventions can express a choice.

The Democrats of Kentucky do not want to witness any more embezzlement of power. The way to avoid that is to instruct the delegates from each county as to just what they shall do, and select delegates that can be trusted to obey those instructions.

The country Democrats, the bone and sinew of the party in the State, have the power to control the State Convention, if they will but exercise it, to fix the policy of the party, and to say who shall represent it at Denver. If the country Democrats want to be represented in the Denver Convention by men like McNutt, Charlton, Mueller and Lillard, and the men who were behind them and forced them to do what they did at Frankfort, all they have to do is to ignore the county conventions, be not concerned about the questions as to who shall go from the counties to the State convention, or what the delegates do after they go there, and Kentucky will be represented at Denver by men who are no better Democrats than these four.

The Democrats should be on guard against embezzlers of power.

Interesting Republican Mix-Up in Bourbon.

Senator-elect Bradley has stirred up the Federal office holders in Kentucky and the fight for supremacy in Republican politics in the State will be to a finish. The leaders of the administration forces, who are for Taft, Ernst and Yerkes, with Bradley leading the Fairbanks crowd.

The fight for control in Bourbon will be very interesting, the two Republican factions here being divided. Postmaster J. L. Earlywine, who up to this time, has always been one of the moving spirits of the Howard faction, is now a pronounced Taft man, while Judge Howard and the majority of his old forces are for Fairbanks.

Mr. James McClintock, the leader of the opposition faction to Howard, is for Taft and it looks to an outsider that Earlywine and McClintock, old political enemies, will join forces in their power to control the Republican convention in this county and send Taft delegates to the State convention.

This is the way things look to a Democrat who is on the outside of the fence. Truly, it will be interesting to watch the mix up in Bourbon.

Caps the Climax.

While every Democrat in Kentucky, especially at his home, is cursing Lillard for his treachery a little balm for his wounds comes from a negro paper published at Danville. It prints his picture and soft soaps him as follows: "A brave Kentuckian, who puts the good name of his State and the interest of his people above party ties and his own political ambition, and votes to end the dead lock in the Legislature and to give Kentucky a United States Senator who will represent the highest ideas of her best citizenship." Verily, this should cap the climax of his vaulting ambition.

A Foolish Story.

The Cincinnati Enquirer has a story from Washington that ex-Senator Blackburn turned the trick for Bradley by getting the four traitors to vote for him, doing so at the solicitation of President Roosevelt, who sent for him away down in Panama to come to his aid, his object being to put Bradley, if elected, under such strong obligations to him that he would not espouse the cause of Fairbanks.

It is true that there is nothing that Blackburn would do, to get even with Gov. Beckham, but the balance of the story hasn't the semblance of truth. Gov. Bradley despises the ex-Senator and his declaration in favor of Fairbanks, shows that he was not a party to the deal. Senator Blackburn may have conferred with the traitors, but it was more substantial arguments that did the business. Old Joe has winning ways and is a fine talker, but money out talks him.

Plundering the Poor.

It would hardly seem probable that the poor people, impoverished by Republican policies, would be able to reduce the amount of coal they burn. It is reported, however, that the Soft Coal Trust is only doing about half of its usual business, and the Anthracite Trust is producing one third more than it can sell. Still the Coal Trusts do not reduce the price of coal or the railroads reduce their exorbitant rates for carrying it. Another instance that the boasted Republican trust-busting is a failure.

Another Scandal.

Still another scandal, the latest being charges of fraud in the patent office with the alleged conspiracy in granting letters patent on an electric lighting invention. But we are told this is a Reform Administration, yet it has yielded more frauds, scandals and investigations than any other Administration.

Slap at Teddy.

The House Committee on Coinage, Weights, and Measures has reported in favor of the bill to restore to certain coins the motto "In God We Trust," which was removed from such coins by order of the President. This is a slap at Teddy.

It is most worth being away from home to find, upon returning, how much she has missed you.

Extra Session of Legislature.

The calling of an extra session to consider the County Unit Bill is spoken of in Frankfort as a certainty. Members of the Legislature in a position to know are convinced that such will be the course of Governor Wilson.

The action of the Senate Thursday in so changing the rules as to require a two-thirds vote to suspend the rules, and placing the calling up of bills in the hands of the rules committee alone, is regarded as precluding the passage of the County Unit Bill at this session.

Friends of the measure believe that at an extra session, with no other legislation to interfere, the bill would be passed.

Governor Wilson declines to discuss the subject of an extra session, regarding it premature when the close of the session is less than ten days away.

The fact that this legislation was a plank in the Republican platform, it is believed that the temperance forces will insist upon the extra session.

Rank Foolishness.

"When attacked by a cough for a cold, or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. Harrison Chief, Jr., sired by Harrison Chief. 1st dam by Peavine, 2d dam by Edwin Forrest 49.

Westwood by Blackwood 74, dam Favorite by Abdellah 15.

SUNLAND CHIEF, is the best harness stallion that has been in Kentucky since Harrison Chief. He has fine all-round action and is fast, natural trotter.

In the show ring he has won at Cynthiana, Georgetown, Lexington and Paris, Ky., fairs.

At Cynthiana last year he defeated ten aged harness stallions, including the Champion of the Blue Grass Fair in 1906 and the Champion of State Fair in 1905.

At Paris Fair in 1907 he won the Aged Harness Stallion Ring and the Sweepstakes Roadster Stallion Ring.

SUNLAND CHIEF's pedigree is full of the blood of the great show horses, Joe Downing, Indian Chief, Peavine, Harrison Chief, and the great mares, Lizzie Peebles, Favorite and Late Boyd.

SUNLAND CHIEF is type of the horse that brings to the breeder and farmer ready money; without much handling. That he will reproduce himself is beyond doubt.

"Ben-Hur" to Be Staged at the Opera House, Lexington.

When the curtain is drawn at the Opera House, Lexington on Thursday evening, March 19, the most elaborate, magnificent and historically correct production will be disclosed that has ever charmed and enthralled a theatre audience, for this will be the premiere of the Chicago Auditorium production of "Ben-Hur" in Lexington. More than three years have elapsed since "Ben-Hur" was presented in Lexington. At that time hundreds journeyed from this vicinity to witness it. No doubt the same excellent patronage will mark the forthcoming engagement.

"Ben-Hur," with its lustrous Star of Bethlehem, its camels, Arabian steeds, Oriental trappings, and mimic splendor of the "gorgeous East" is beyond dispute the most elaborate spectacle ever staged in the history of the world. Its series of 17 scenes present to the eye a feast of multifarious beauty and variety, all set to a symphonic accompaniment of graceful music. The exciting episodes, such as the gally scene with its horde of chained slaves; the sea-fight, and rescue in mid-sea and the thrilling race with two chariots and eight horses, combined with the picturesque scenes illustrating the Wise Men in the desert, the moonlit lake in the Orchard of Palms where Ben-Hur and Iraas enjoy seclusion and make love in Iraas' barge, the palm-waving worshippers on Mt. Olivet, and the Grove of Daphne with nymphs dancing in the skins of beasts to the music of kissing cymbals—simply captivate audiences wherever it is enacted.

"Ben-Hur" appeals to all classes, all ages and all denominations of the Christian faith, and draws to it, as to a place of worship hundreds of thousands who seldom, if ever, set foot within a theatre. The person of the Savior is never made to appear bodily in the play, yet in the scene in which the healing of the lepers is implied the approach of the Master is indicated by a stream of pure white light amazing in its effectiveness. This scene is the most remarkable of the play and is heightened in impressiveness by the singing of a chorus of one hundred voices, joining in "Hosannas" of praise to the Lord.

The engagement of "Ben-Hur" is for three nights only, opening on Thursday, March 19, with a special matinee performance on Saturday, March 21. Seats for the "Ben-Hur" season will be placed on sale Monday, March 16. Mail orders, accompanied by remittance, will be filled in order of receipt. The scale of prices will range from 50 cents to \$2.00. All communications should be addressed to Mr. Charles Scott, manager of the Opera House, Lexington.

A System of Dietetics.

"How do you account for Dr. Parker's enormous practice?" "He finds out what his patients don't like and then he forbids them to eat it."

Broad Hospitality.

Kentucky has long been famed as a State of broad hospitality, but an incident recently heard about a certain Blue Grass plantation seems to express all the traditional hospitality of the great State in one capsule. It is said that at the entrance of the fine woods tract where the timber has not been disturbed and where the squirrels play among the trees and game is abundant, there appears—instead of the usual admonition not to trespass—this sign, "Hunt all you d—n please, and when the bell rings come to dinner."—Nashville Tennessean.

Lame Shoulder.

Whether resulting from a sprain or from rheumatic pains, there is nothing so good for a lame shoulder as Chamberlain's Pain Balm. Apply it freely and rub the parts vigorously at each application and a quick cure is certain. For sale by W. T. Brooks. "You need no other guarantee."

ECZEMA NOW CURABLE.

All Itching Skin Diseases Which are Not Hereditary Instantly Relieved by Oil of Wintergreen.

Can Eczema be cured? Some physician say "Yes."

Some say "No." The real question is, "What is meant by Eczema?" If you mean those scaly eruptions, those diseases which make their first appearance, not at birth, but years afterward, and perhaps not until middle age—then there can no longer be any question that these forms of Eczema are curable.

Simple vegetable oil of wintergreen mixed with vegetable ingredients, will kill the germs that infest the skin. Apply this prescription to the skin and instantly that awful itch is gone. The very moment the liquid is applied, that agonizing tantalizing itch disappears, and continued applications of this external remedy soon cure the disease.

We carry in stock this oil of wintergreen properly compounded into D. D. Prescription. While we are not sure that it will cure all these cases of skin trouble which are inherited, we positively know that this D. D. Prescription, whenever rightly used, will cure every last case of genuine Eczema or other skin trouble, which did not exist at birth.

We know this. Anyway you, yourself, will know that D. D. Prescription instantly takes away that itch the moment it is applied to the skin. C. J. Clarke & Co., Paris, Ky. Stop that itch to-day—instantly. Just call at our store and try this refreshing and soothing liquid; also ask about D. D. Soap.

A Tribute to Solomon.

"Thar never was a boy born into the world that don't have to have the Hickory put to him more than once, an' the offener the better," said Mr. Billy Sander. "You may think my talk is harsh, but the more I love a boy, the more I wanter see him come under some strong an' heavy hand, becase I know it's his only salvation. You may look back on all the youngsters you've know'd, an' you'll find that we aint got any more wisdom than Solomon, ef as much. He tore the bottom out of the basket in mighty few words. 'Spar the rod an' spile the child.' Ef he'd a' never said nothin' else, them seven words would a'made him the wisest man the world ever seed. No newspaper paragrapher has ever beat it yet. Ef brevity's the sole of whiteness, your Uncle Solomon has got it down mighty fine; ef he aint, you may call me Mabel, an' print in the paper that I've done gone an' eloped wi' a college fiddler named Clarence Raymond."—Joel Chandler Harris in Uncle Remus's Magazine for March.

Declared the Candidate.

Judge O'Rear being the only candidate for the Republican nomination for the Court of Appeals from his district the committee met at Mt. Sterling Monday and declared him the nominee, thus doing away with the convention as originally called.

English Manners Criticized.

A man shoves past a woman on a staircase, or he leaves her standing while he sits. He comes into a crowded public room with his hat on and talks loudly, as if all the place belonged to him. His womenkind do the same. At present the workingman has the best manners, the middle class the worst.—London Graphic.

We cannot be, at the same time, kind and wary; nor can we serve two masters—love and selfishness.

A WORD in Regard to Catalogue Houses.

We are aware of the fact that a large per cent. of the Vehicle buyers are under the impression that they can obtain a vehicle from a Catalogue House Cheaper than from a dealer.

We can furnish the Same Vehicle from the same factory and on the same terms as one of the largest Catalogue Houses and save you the freight.

The following is a partial list with prices on same:

Catalogue No.	Style of Vehicle.	Price.
No. 11 K 714	Buggy "Leader"	\$ 49.95
No. 11 K 628	Buggy "Leader"	64.95

NOT HOW CHEAP, BUT HOW GOOD.

Bourbon Circuit Court.

The March term of the Bourbon Circuit Court convened yesterday morning with Judge Robt. L. Stout on the bench and Commonwealth Attorney Robt. B. Franklin at his post of duty. After the reading of the orders by Circuit Clerk Butler the following gentlemen were called by the Sheriff to take their places in the box to serve as Grand Jurymen, and were sworn in for that purpose: V. W. Ferguson, foreman; Chas. Stevens, Jno. S. Talbott, W. P. Ardery, W. Harney, J. H. Letton, Nat. Collier, John T. Purdy, Ed. Clark, S. R. Butler, Warren Ingels, A. B. Campbell.

Judge Stout's instructions to the jury were mostly in regard to the tobacco situation and were well put. He said in substance, that they were called to do service for the State and county, and ought to be congratulated for the reputation of Bourbon county for law and order throughout the confines of the State of Kentucky. That these assets were of no small value, it made the county a most desirable place to live and enhances the value of its real estate; that this reputation should be jealously preserved and kept free from stain. He further said that the reputation of the State had suffered in the past few months; that it had become an outlaw in the eyes of sister States by the unbridled lawlessness, riot, arson and murder that had been raging at Hopkinsville, Princeton, Eddyville and other points. The whole State suffers from these outrages in the communities mentioned. He impressed upon them that each community should preserve its own good name.

He was informed that Bourbon county was free from any of the outrages referred to but he had learned from one of the county officers that an independent tobacco grower had been threatened. He has a legal right to raise a crop of tobacco. He said he did not propose to discuss the matter or abuse anybody, he wanted a spirit of fraternity and mutual co-operation to exist between the Equity people and the Independents—they were neighbors.

He said that there were laws on the Statute books against trusts and just so sure as the sun rises and sets lawlessness will be stopped in Kentucky, law must prevail and will in the old Commonwealth.

Equity independents and trusts stand alike before him when it comes to lawlessness. He wanted them to summons parties from both sides of this question before them and the officers of the county and get all of the information possible on this subject.

He called their attention to the liquor laws, gaming laws, game and fish laws and petit misdemeanors, the latter often becoming crimes of large magnitude.

Court then adjourned until 9 o'clock this morning.

Turnpikes in Bad Condition.

We have heard in the past few days considerable talk upon our streets about the bad condition of several of the turnpikes in the county. Surely Bourbon county is spending enough money on turnpikes as to not allow such talk as this. One gentleman in different part of the county, Austerlitz neighborhood, told us the other day he was going to indict the county if something was not done to his pike.

Small Pox in Bourbon.

There have been six cases of smallpox reported by Dr. McClure from the Little Rock precinct, this county, and one case reported from Shawhan Station.

It has been reported here for several days that there were over 300 cases of smallpox in the city of Lexington, and not a line of warning has been given our people who frequent that city in any of the Lexington newspapers. The cases now in Bourbon are said to have been traced and found to have come from Lexington. We would advise our citizens to keep shy of Lexington at the present time.

County Clerk's Report.

County Clerk Pearce Paton filed his report in Circuit Court yesterday, which takes in the business of his office from November 1st, 1907, to March 1st, 1908. The report shows that there had been 82 deeds filed during that time; 49 mortgages recorded; 34 marriage licenses issued; 24 seals; 1 license for retailing spirituous and vicious liquors and 11 for retailing spirituous vino and malt liquors; 1 for soft drinks; 1 for skating rink, 1 for billiard and pool tables; 3 to cigarette dealers; 4 to stand bulls; 3 to dealers in oleomargarine.

Total amount remitted to State Auditor, \$1,791.93; amount paid to M. F. Kenney, Jury Commissioner, \$641.07; amount due County Clerk by Commonwealth, \$17.15.

This is the first time in fifteen years, since the panicky times of 1893, that the balance of one of these reports has been in favor of the Clerk. This is a good demonstration of the effects of the recent panic in this county. It shows that money was not obtainable from the banks to invest or to borrow on mortgages. This report shows a decrease of 114 deeds and mortgages compared with report of the same four months one year ago.

Mix the following by shaking well in a bottle, and take in teaspoonful doses after meals and at bedtime:

Fluid Extract Dandelion, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist is the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggists.

The mixture is said to cleanse and strengthen the clogged and inactive Kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds, if taken before the stage of bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October of 1906, since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburgh and other cities have made many announcements of it to their readers.

Regret for Wasted Life.

Moody, the evangelist, used to tell of a man who spent 60 years of his life amassing a great wealth, and at last his mind gave way. They took him to the insane asylum and he threw himself into a chair crying out in agony: "Millions of money, and in a madhouse."

LIVE STOCK AND CROP NOTES

—Corn, brought \$2.25 a bbl. in the crib and cows \$45 to \$50 at John Brand's sale in Fayette.

If the young colt gets stunted it will never attain the growth it should. It can be made fat, but not large. Keep it growing.

At Thompson & Duckworth's sale of Jersey cattle, in Jessamine county, 19 cows and calves averaged a fraction over \$50 and twelve heifers averaged \$43.75.

An Angus bull, valued at \$500, and five blooded Berkshire hogs, belonging to Chas. E. Marvin, of Paynes Depot, were killed by lightning last Sunday.

Shoes should not be left on a horse longer than six or eight weeks without being reset. Many a foot is ruined by not attending to this in time.

The health and strength of the farm team should be guarded at all times. It will never pay to wear out a good horse just to get a certain amount of work done.

—When horses persist in rubbing their rumps against things you better scrub the animal with a good coal tar dip to kill the mange or lice, as the case may be.

If you have good stallions in your community, get a pair of pure-bred mares and get into the most profitable horse-breeding. You will soon breed into a handsome income every year.

—Animals appreciate regularity in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and perseverance in the use of a reasonable length of time to get full benefits. The ingredients of which Dr. Pierce's medicine are composed have the unequalled endorsement of scores of medical experts, both in this amount of lay or non-professional, testimonials. They are not given away to be experienced with but are sold by all dealers in medicines at reasonable prices.

—At the next annual meeting of the America Saddle Horse Breeders' Association, will be held at the Seelye Club in Louisville, April 10th. It is expected that a larger attendance than usual will be present. The interest seen to be growing year by year.

—Receipts on the Chicago market for three days last week, coincided with the same period last week, in round number decreased 2,900 cattle and increased 3,900 hogs and 1,000 sheep. Compared with the same period last year cattle decreased 300, hogs increased 47,600 and sheep decreased \$3,000.

—When an exercising lot can be had, it should be long and rather narrow, so as to prevent the horse from running in a circle, which so often results in a slip or a fall, which may prove to be very injurious to the animal. In a long lot the animal will have a chance to extend itself.

—Clover and alfalfa make the best pasture for hogs. Every farmer who raises hogs should provide them with a good pasture. Rape is one of the excellent crops for this purpose, as it furnishes an abundance of succulent feed, but it is of a carbonaceous nature and should be fed with nitrogenous concentrate. Red clover and alfalfa are the better crops to use.

—A good cheap blacking for harness which is to be applied with a sponge and polish with a brush, is prepared as follows: Melt 4 ounces of mutton suet with 12 ounces of beeswax, then add 12 ounces of sugar candy, 4 ounces of soft soap dissolved in a little water and 2 ounces of finely powdered indigo. This, when well mixed, is thinned out with half a pint of turpentine. Frequent applications of this mixture will render the harness waterproof and greatly increase its durability.

—Down in Oklahoma farmers are forming "acre clubs," each member taking one acre for an experimental crop, doing his best with it, and when the season is over reporting his experience, inclusive of mistakes, and describing his methods. This is the most practical form of agricultural education and the plan might well be adopted elsewhere. Few farmers are so skilled in agricultural science that they can not learn something from their associates. The Oklahoma plan is a kind of extension of the experiment station, a reproduction in miniature on the individual farm of the principles governing the stations. It is a most excellent idea and if generally carried out will prove of great educational benefit.

Sheep Have Rabies.

Nearly forty head of sheep belonging to Will Lewis, a farmer of Simpson county, have gone mad as the result of dog bites. A rabid animal was at large among them some days ago, and one by one the sheep have been dropping off and dying.

Important Bills Passed.

The Crecelius tobacco bill, providing a fine up to \$250 for the buying or selling of pledged tobacco, passed the Senate Friday by a good-sized majority. Friends of the measure believe that it will prove a strong preventive to "night riding."

An amendment was inserted in the bill making the penalty lie against any one who "knowingly" buys pooled tobacco. As the House later concurred in the amendment, the bill will become a law as soon as signed by the Governor.

The House passed the bill to change the system of governing the county schools of the State from the present trustee system to the county board method, by the vote of 52 to 23. But two amendments were tacked on to the committee's substitute for the original bill, one by Representative Haswell, of Breckinridge, requiring the new School Board to establish a high school in every county which may not have one within a period of two years, an one within a period of two years, an one by Representative Beard, of Shelby, exempting school districts created by special acts and having special school funds from the provisions of the bill.

The Bourbon Fiscal Court met Friday in adjourned session with Judge Denis Dundon presiding, and Esquires Mann, Thomason, Hopkins, Redmon, Claybrook, Barlow and Keller present.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them on the bottle wrappers and attest its correctness under oath, are daily growing in favor.

The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized.

Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes

original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs.

Examine the formulae on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his

"Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and lung-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and perseverance in the use of a reasonable length of time to get full benefits. The ingredients of which Dr. Pierce's medicine are composed have the unequalled endorsement of scores of medical experts, both in lay or non-professional, testimonials.

They are not given away to be experienced with but are sold by all dealers in medicines at reasonable prices.

Unequalled as a Cure for Creep, besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequalled as a cure for creep," says Harry Wilson, of Waynetown, Ind. When given as soon as the creasy creep appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by W. T. Brooks. "You need no other guarantee."

Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James, of Louellen, S. C. "It's called Electric Bitters, and comes in 50 cent bottles.

It breaks up a case of chills or a bilious attack in almost no time;

and it puts jaundice, clean out of commission."

This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at Oberdorfer's drug store.

Nebraska Instructs for Bryan.

Instructing their delegates to "vote as a unit" or the presidential nomination of William Jennings Bryan at Denver next July, the members of the Nebraska Democratic Convention Thursday made clear officially that his home State will support Bryan principles throughout the National Convention of the party. They followed this action by turning out en masse to cheer a platform which admittedly reflects Bryan's views on national affairs, and to greet their leader with an outburst of cheering that brought a flush of pleasure to the countenance of the recipient. All the proceedings of the day were planned with an ascending scale of enthusiasm in view.

How well this worked out was evidenced by the scenes in the convention hall Thursday night. Close on 1,000 delegates, hundreds of other active party members and thousands of private citizens hailed Mr. Bryan as "the next President of the United States." Applause that quickly changed to cheers, then instantly turned in wild yells, greeted him when he appeared to begin the speech which wound up the day. During his remarks this demonstration was renewed frequently, and at the end was repeated with renewed vigor.

New Law in Effect.

A big freight train on the Queen & Crescent road, which was on its regular run from Cincinnati to Danville, was held up at Lexington at 8 o'clock Friday morning on account of the new law which provides that no train crew should be in continuous service for more than sixteen hours, the law having gone into effect Tuesday.

When the train, which was a local freight, arrived at Lexington at 3 o'clock Friday morning, it had been on the road fourteen hours, and as it had many stops to make between there and Danville, it was obviously not possible for it to reach that city within the remaining two hours.

The officials of the road therefore ordered it held at Lexington until the eight hours of rest for the crew provided by law had elapsed. It left there Friday at 11 o'clock, when the eight-hour interval had elapsed.

This is the first example in Kentucky of the operation of the new law.

Repeal of Tobacco Tax.

Representative Johnson, of Kentucky, expressed the opinion at Washington Friday that the bill repealing the tax of six cents a pound on leaf tobacco would become a law this session. The latter body has passed it twice but it has always died in the Senate Committee on Finance.

Mr. Johnson says he has taken pains to learn the sentiment of the House and the Senate, as well as to do all he could to line up members for the bill. He believes it will get through the House early enough to give it time to pass the Senate also.

The New York Sun prints a story from its Washington correspondent today to the effect that members of Congress from the Southern and Pacific Coast States had formed an alliance for the purpose of passing laws restricting the immigration of Asiatics and preventing legislation affecting Southern negroes which may be opposed by Southern whites.

While there is no formal alliance between the members from the two sections named, there is a general understanding that for Western Republicans and Southern Democrats will stand together to secure or prevent what may be termed "racial" legislation.

The McCord Tobacco Bill.

The McCord Tobacco Bill, which brings the tobacco business under the police authority of the State, and passed the Lower House the other day, is one of the bills which is backed by the Society of Equity.

Briefly stated, the bill as passed provides that any person or corporation engaged in the business purchasing or manufacturing tobacco in this State shall pay a license tax equal to ten cents on each one thousand pounds of tobacco grown in this State, the amount of said license to be determined by the Commissioner of Agriculture, and the sum so derived to be turned into the State Treasury to be expended for the purpose of fostering the tobacco industry of this State. It further provided that the courts shall have jurisdiction of violations of this law constituting forfeiture of license, and any person or corporation engaged in purchasing or manufacturing tobacco in this State without the license required shall be guilty of a misdemeanor, punishable by a fine of not less than \$100 nor more than \$1,000 for each day such a business is carried on without a license.

Convict Marriages.

French female convicts have one privilege that female convicts of other countries do not enjoy—they are allowed to get married. But the husbands must also be convicts. Every six months a notice is circulated in the female penitentiaries calling upon all women who feel minded to go out to New Caledonia, in the South Pacific, and be married to make application to that effect through the governor. Elderly women are said to be prompt in making such applications, but they are not entertained as the candidates must be young and exempt from physical infirmities. The selected candidates have to sign engagements promising to marry convicts and settle in Caledonia for the remainder of their lives.

On these conditions the government transports them and gives them an outfit and a ticket-of-leave when they land at Noumea. Their marriages are arranged for them by the governor of the colony, who has a section of well behaved convicts for them to choose from, and each girl may consult her own fancy within certain limits, for the proportion of marriageable men to women is about three to one. Sometimes wardens or free settlers have wood a pretty female convict, but before being permitted to marry her must place themselves in the position of a ticket-of-leave man and undertake never to leave the colony.

Street Lighting.

Considerable interest is now being manifested in regard to the bids for lighting the streets, which was received at the last Council meeting from the Paris Gas Company and the Paris Electric Light Company.

When interviewed, Mr. Allen, of the Electric Light Company, stated that the matter was in the hands of the Light Committee, and he was very hopeful of securing the entire contract for his company. In discussing the question he said:

"These figures are bound to speak for themselves. We have suggested two arrangements and if our bid is accepted as a whole and the city desires to place one of our lights at every point where there is now located a gas post, it will save \$1,198 per year; or if the city should adopt the arrangement we have suggested it will save \$5,561 per year. On the total contract the amount thus saved the city by accepting our proposition as a whole is \$2,396 and \$3,122, respectively."

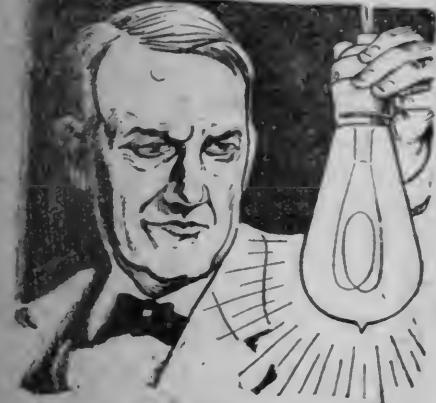

On the question about the statement he had made to the effect that the Gas Company is charging the city more for gas than they charged the private citizens, he replied:

"I made that statement and I am satisfied that a thorough investigation will prove the truth of it. We charge the city considerably less for our gas than we get from the private consumers, which, I think, is a correct notion. You see there is a large number of citizens that cannot afford to
